Objective: This proposal outlines a structured three-session program designed to introduce 12–14-year-old youths to the art of fly fishing. Each session will include a balanced combination of casting practice and educational components, fostering a comprehensive understanding of the basics within a controlled indoor setting.

Program Overview:

Session 1: Introduction and Gear Basics (2 hours)

- Brief introduction to the history and appeal of fly fishing.
- Overview of basic gear: rods, reels, lines, and leaders.
- Demonstration and hands-on experience assembling and handling equipment.
- Casting practice - Basic casting techniques.

Session 2: Understanding Aquatic Ecosystems and Knot Tying (2 hours)

- Introduction to different water bodies and their ecosystems.
- Importance of conservation and responsible fishing practices.
- Essential knots for fly fishing.
- Hands-on knot tying practice.
- Casting practice - Refinement of basic casting techniques.

Session 3: Entomology Basics and Practical Application (2 hours)

- Overview of aquatic insects and their role in fly fishing.
- Identification of common insects and selecting flies.
- Demonstration of Fly Tying
- Importance of catch-and-release practices.
- Practical casting exercises to reinforce skills learned.
- Recap of gear basics and casting techniques.

Logistics:

- Duration: 3 sessions (2 hours each).
- Class Size: 8 students, each accompanied by one adult.
- Location: New Hope Church Gymnasium,
639 S Eighth Street, Mount Horeb, WI 53572

Materials:

- Fly fishing indoor practice rod for each participant that can be taken home.
- Presentation materials for theoretical components.
- Knot tying materials (practice lines, hooks, etc.).
- Casting targets or markers for practical exercises.

Instructors:

- Kalyn Hoggard, Certified fly-fishing casting instructor with experience in youth education for casting skill development
- Fly Fishing Guides contributing to the educational material.

Conclusion: This well-rounded program ensures a balanced and engaging experience for young participants by combining casting practice with educational components. By covering gear basics, aquatic ecosystems, knot tying, and entomology, the program sets the foundation for a comprehensive understanding of fly fishing. The controlled indoor setting allows for a focused learning environment, preparing participants for potential future on-water experiences.
